ETAP 23ii - EMMA

#### General Information

The Etap 23ii is a lift keel sailboat, the boat has a fractional rig with roller reefing headsail and main sail slab reefing. The unique Etap construction methods gives added confidence with a GRP double hull and is rated unsinkable. Lake sailed and wintered on hard standing each year. The engine is a Yamaha 9.9HP electric start high thrust motor serviced and ready for the new season. The boat comes with a Harbeck four wheel trailer. A pleasure to sail with good manners, setup for single handed sailing with all reefing lines feed to clutches in the cockpit.
